

AMISTAR OPTI

PRODUCT USE

SUMMARY OF INFORMATION

FORMULATION AND ACTIVE INGREDIENT: AMISTAR OPTI is a suspension concentrate containing 100 g/l azoxystrobin and 500 g/l chlorothalonil.

MAPP NUMBER: 14582

PACK SIZE: 5 litres.

TARGETS:

Winter and Spring Wheat:

Septoria tritici, *Septoria nodorum*, Yellow Rust, Brown Rust. Can reduce the severity of Take-all.

Winter and Spring Barley:

Net Blotch, Brown Rust, *Rhynchosporium* – [Moderate control]. Can reduce the severity of Take-all. Control of Barley Spotting is also achieved when used as part of a programme with other fungicides.

WATER VOLUME AND BCPC SPRAY QUALITY: Apply in at least 200 litres of water per hectare using a MEDIUM quality spray (BCPC) at a pressure of at least 2 bar. Apply through conventional crop spraying equipment. In dense crops increase the water volume to 250–300 litres per hectare to improve coverage.

PRACTICAL NOTES:

CROPS	MAXIMUM INDIVIDUAL DOSE (LITRES PRODUCT/HA)	MAXIMUM TOTAL DOSE (LITRES PRODUCT/ HA/CROP)	MAXIMUM NUMBER OF TREATMENTS	LATEST TIME OF APPLICATION
Wheat	2 litres	4 litres	2 per crop	Before caryopsis watery ripe stage (GS71)
Barley	2 litres	4 litres	2 per crop	Before beginning of heading (GS51)

OTHER SPECIFIC RESTRICTIONS: No more than 2 applications of products containing Qol fungicides must be applied to any cereal crop.

RAINFASTNESS: 1 hour.

BUFFER ZONE RESTRICTIONS: B

FOR USE ONLY AS: AN AGRICULTURAL FUNGICIDE
