

HERBICIDE

COMPATIBILITY

The following tank mixes have been tested for physical compatibility with CALARIS at recommended rates of use and will mix in the sprayer tank. No tests have been undertaken on crop safety or product performance. Use is at the user's own risk. Syngenta Crop Protection will support 2 or 3-way tank mixes of CALARIS with any of the herbicides and insecticides listed. For further information on compatibilities, contact Syngenta Crop Protection on 0800 169 6058.

HERBICIDES

TRACE ELEMENTS

Syngenta Crop Protection will support the tank mixing of any of the named trace elements with an existing 2 or 3-way tank mix including CALARIS. Syngenta Crop Protection advise that the trace element part of the tank mix is added to the sprayer tank last with constant agitation and the mixture is sprayed without delay.

NOTES

Before using any tank mixture, consult and comply with the recommendations of the partner products. Each product should be added separately to the bulk of the water in the spray tank and thoroughly mixed before adding the next chemical. Always use constant agitation of the sprayer tank during mixing, transportation and application. Spray immediately.

¹ Continuous agitation required at all times

CALARIS is INCOMPATIBLE with Nutrel Maize Micro Booster and Dursban WG

Always read the label. Use pesticides safely.
